Step 2: Pair with partner apps

There are two places to sync with other apps from within the Well 1-2-1 app. First, during the sign-up process, you'll be prompted to choose from a list of apps available after you've entered your Invite ID and created your account with an email and password.

Each app has its own unique way of syncing, so it's important that you know what to expect when syncing with each app.

Our '**Well 1-2-1 app pairing guide**' details the syncing process for the most popular apps that Well 1-2-1 users sync with: Apple Health, Fitbit, Garmin, and Google Fit.

Although we don't recommend it, You can opt to skip this step during sign-up.

If you skip this step, you can sync with connected apps later by tapping the **Settings** tab in the Well 1-2-1 app and selecting **Connected Apps and Trackers**.
